

STATEMENT OF JUSTIFICATION

The property in question is located at 18917 Telegraph Springs Road, Purcellville, VA. We purchased the property and the adjacent lot (18911 Telegraph Springs Road) in 2006 with plans to build a single family home thus increasing the property's value and utilizing the property in a manner consistent with the intent of the zoning. The lot at 18917 Telegraph Springs Road is 12.61 acres, and the lot at 18911 Telegraph Springs Road is 14.82 acres for a total of 27.43 combined acres.

Proposed Construction

There is no existing dwelling or other building on the property. The planned house is a small, simply-formed farmhouse with a one-story porch across a portion of the front and right-side elevations. The materials and details draw from those outlined in the Goose Creek Historic District Guidelines. Smooth cementitious lapped siding with a seven-inch reveal, parging on the foundation, a brick chimney with a running bond pattern, and a standing-seam metal roof are proposed.

Siting

The planned siting of the home, facing south on an elevated area between two higher land areas, is consistent with that of the historic farm dwellings of Goose Creek as outlined in The Guidelines. The home will sit approximately 1,050 feet from Telegraph Springs Road. The proposed building site is not visible from the entrance.

Photographs of neighboring homes, the entrance to the property, the building site, and a nearby nineteenth-century farmhouse of similar design are provided.
